

35 international speakers confirm participation in third ATC

BY OUR BUSINESS BUREAU

DUBAI: Society of Engineers – UAE organise the third Arabian Tunnelling Conference (ATC) and Exhibition in partnership with the International Tunnelling Association (ITA) from the period of Nov. 23 to 25, 2015 in Dubai. Dubai is hosting the third edition of ATC, an event dedicated to the field of tunnelling and best sustainable usage of underground space in the Gulf and Middle East. Society of Engineers – UAE will once again organise this event after the outstanding success of its first and second edition.

Eng. Essa Al Madoor, Deputy Director General of Dubai Municipality and President of Society of Engineers – UAE said: "This conference captures the local and international attention as it confirms the participation of 35 speakers for two days conference from 30 countries worldwide.

The conference will explore the best practices and lessons learned in the field of underground space and especially it will present the biggest and oldest tunnel as well as the fastest train all over the world and how to overcome the challenges and difficulties in the field of construction and health & safety in infrastructure sector.
